Our Newest Church Project (2016)

If finished our 2017 Graduation will be held in this building located on $\frac{3}{4}$ acre. The land and building are debt free. This will be the main church where seminars and special meetings are held in the bush country. Bible school students meet here for some of their classes weekly. Last year during revival 50 people were baptized in one service. The floors and side walls are concreted. We need windows, doors and ceiling to finish.

Church service at the orphanage (2016). Two of our Bible Students started these services. The service brought tears to every member of our team. It was Awesome
Neighboring villages are now beginning to attend services.
